♻️ SMART PACKAGING FOR SMART COMPANIESSM

POWER PALLET™

CONSTRUCTION ILLUSTRATION
(48" x 40" pallet shown)

4-WAY FORKLIFT ENTRY ILLUSTRATION
(Forks "Knock-Out" honeycomb blocks)

When shipping full truckload, IEI's Power Pallet™ is an excellent alternative to one-way disposable wooden pallets.

960 PALLETS / 48' TRAILER
1040 PALLETS / 53' TRAILER
(NOTE: Red markings on sides denote forklift target area for side entry.)

IEI provides this patented shipping pallet for uniformly distributed loads that weigh up to 2,000 pounds.

Benefits:

- Can be stacked four high and support 2,000 uniform pounds/pallet.
- "Low Profile" version designed to maximize cube utilization.
- Meets pre-approved disposal regulations of foreign countries.
- Standard & custom sizes available (*no winter shortages*).
- Light weight (7 1/2 lbs. total) = reduced worker's compensation claims.
- Fully recyclable and is made with 28% recycled fibre on average.
- Clean.
